

# IKEA Ibérica, S.A.

## Península Ibérica

## Iberian Peninsula IKEA's Shops Retrofit Survey

### Description :

To reduce energy consumption and increase the energetic efficiency of all IKEA's Stores in the Iberian Peninsula, *INGENIBO PROJECTS* has audited the buildings and their installations, and has analysed the use of renewable energies.

As well as other tasks, improvements in the following installations have been studied:

- Electrical Lighting
- HVAC
- BMS
- Thermal insulation

**Date of execution:** 2007-2008
